## Notes

Gasoline and diesel tax increased by 1.5 cpg on 7/1/18. The sales and use tax is 9.7 cpg. The Transportation Infrastructure Investment Act of 2013 indexed the motor fuel tax rates for all fuels, except aviation gasoline and turbine fuel to the annual change in the Consumer Price Index (CPI) and imposes a sales and use tax equivalent on all motor fuel, except aviation and turbine fuel. If there is a decline or no growth in the CPI, the motor fuel tax rates shall remain unchanged. The excise tax rate may not increase by more than 8% of the tax rate imposed in the previous year. The new law imposes a sales and use tax equivalent rate on motor fuel based on the average annual retail price of regular unleaded gasoline, excluding Federal and State taxes.
