49.51	Total State plus Federal Excise Taxes (@ 18.4 cpg)

Utah Diesel

31.10	State Excise Tax
0.01	Other State Taxes/Fees
31.11	Total State Taxes/Fees
55.51	Total State plus Federal Excise Taxes (@ 24.4 cpg)

National Average

(cents per gallon)

Notes

Effective 1/1/20 the motor fuel tax rate in Utah is 31.1 cpg for both gasoline and diesel, an increase of 1.1 cpg for both gasoline and diesel. In addition, at the end of 2019 a comprehensive tax package, including, an increase in the state gasoline tax passed the state legislature. SB 2001 included a provision adding a sales tax on motor fuels in addition to the current excise tax. The sales tax would be calculated based on a percentage of the previous year wholesale price. The increase would take effect 3/1/20. However, since the tax was not approved with a 2/3 majority vote, it is subject to challenge by citizen referendum. Already 2 groups are running referendum drives aimed at overturning the new law. If sufficient signatures are collected by 1/21/20 and then validated by state election officials by 3/17/20 it will go to a vote in November 2020. "Other Taxes" is comprised of an Environmental Assurance Fee.
